DESCRIPTION OF SURVEY

Scope of Survey. This survey includes manufacturers, government contractors, and jobbers of men's, women's, misses', and juniors' selected apparel. Garments which are cut in the United States and sent outside the country to be sewn are included in this report. These finished garments are then imported into the United States under the provision of item 807.00 of the Tariff Schedule of the United States Annotated.

Survey of Methodology. The statistics shown in this publication were collected on Bureau of the Census monthly Form M23I, Men's, Women's, Misses', and Juniors' Selected Appparel, from a sample of approximately 775 firms accounting for 90 percent of total cuttings of selected apparel items. The universe for this survey is the 1983 annual surveys MA23E, *Men's and Boys' Outerwear*, and MA23F, *Women's and Children's Outerwear*. The monthly sample was selected by arraying these annual survey panels in descending order by size for each product category and then choosing a sufficient number (beginning with the largest) to yield a coverage of approximately 90 percent for each product category. Data for the small firms included in the annual surveys but not selected for the monthly sample are estimated based on their reported or derived annual level and the month-to-month trends of reporting firms.

Survey Error. Figures for the current month may include estimates for panel members for which reports were not received in time for tabulation. Such missing figures are "imputed" based on month-to-month movements shown by reporting firms. Imputation generally is limited to a maximum of 25 percent for any one data cell. Figures with imputation rates greater than 25 percent are footnoted.

Reporting Period Adjustment. The data are adjusted for the number of working days in the reporting period to compensate for differences in individual company reporting patterns, i.e., calendar month, 4-week, 5-week periods. Since the calendar month accounting system prevails in the industry, adjustments have been made to those reporting on other than a calendar month basis.

EXPLANATION OF TERMS
